

Who Are We:

Part of PSA's mission is the commitment to growing the company where passion is shared, professional excellence is expected, and all people—customers and employees—are valued and respected. We are focused on creating a culture of learning and investing in our employees for the future of PSA.

PSA Airlines operates an all-jet fleet consisting of exclusively Bombardier regional jet aircraft. We have an incredible team of more than 3,900 employees who do a tremendous job of operating more than 800 daily flights to nearly 100 destinations on behalf of American Airlines.

Headquartered in Dayton, Ohio, PSA operates 35 Bombardier CRJ200 aircraft, 41 Bombardier CRJ700 aircraft, and 54 Bombardier CRJ900 aircraft. The airline expects to add additional aircraft bringing its fleet count to 150.

MANAGED TECHNOLOGY SERVICES

an HBR Consulting solution

Who Are We:

HBR Consulting, headquarters in Chicago, IL, provides advisory and IT managed services to law firms, corporate law departments, and legal services providers. Our organization is 300 people strong and growing rapidly, with over 50 in the Dayton area. Our growth in Dayton came through acquisition of the Managed Technology Services business from LexisNexis, which has a rich history of providing hosting, network, and colocation services to global law firm clients.

The Dayton team provides IT managed services for clients, which include private and public cloud infrastructure hosting, application deployment and support, global operations, information security, and project and relationship management. We manage dozens of clients, 12+ petabytes of data, 300 circuits, thousands of computers, and a dozen facilities in the US, Europe, and Asia.

Who Are We:

AIDA is the global leader in the design, manufacture, sale, service and support, refurbishment and modernization of metal stamping presses and metalforming automation equipment.

AIDA servo and mechanical stamping presses range in capacity from 30 to 4,000 tons, from 1 to 1,500 strokes per minute, from gap frame to straightside, high speed to cold forging, transfer and progressive die, material handling and coil feeding equipment. AIDA provides one of the broadest selections of complete metalforming systems from a single manufacturer. With a worldwide network of sales and service locations in nearly 40 cities across 20 countries, press installations exceeding 80,000 units in over 60 countries worldwide, producing a range of products for industries such as automotive, appliance, medical, aerospace, electronics, and electrical, AIDA is truly a global metalforming solutions provider.

Who Are We:

DMAX is a joint venture, 60 percent owned by GM, 40 percent owned by Isuzu Diesel Services of America, Inc.

DMAX machines the engine block, cylinder head, and crankshaft in the 670,000 sq. ft manufacturing facility in Moraine. These components, along with purchased parts, are assembled into the 6.6L Duramax Diesel engine which is fully tested in a dynamometer type test cell prior to shipment to the assembly plant customer.

The redesigned Duramax 6.6L V-8 turbo-diesel offered on GMC Sierra and Chevrolet Silverado HD pick-up trucks, offers more horsepower and torque than ever—an SAE-certified 445 horsepower (332kW) and net 910 lb.-ft (1,234 Nm) - to enable easier, more confident hauling and trailering. The redesigned turbo-diesel's performance is quieter and smoother, for greater refinement, reducing engine noise at idle by 38 percent.

Who Are We:

Mission: Extraordinary people transforming “the gift” to save and enhance lives.

Vision: The leading ethical and innovative partner of choice for quality and customer-focused biologic solutions.

Community Tissue Services has a national network of distribution locations that allows for quick and efficient delivery. Each location keeps a strategic level of grafts on hand for emergency situations.

Making an impact on over half a million lives each year takes more than a group of employees. The incredible work we do is only possible with a dynamic team fully invested in bringing their best every day.
